Bumpers, Dock Lights, Wheel Chocks & More

PIONEER provides a variety of additional products for the dock environment.

Bumpers – Laminated and molded rubber construction available in a broad array of sizes and shapes to fit your particular needs.

Dock Lights – Double strut or adjustable folding arm design in standard lengths up to 90". New, lighter polycarbonate lamp head won't dent and remains cool to the touch for easier positioning. Optional fan attachment available.

Wheel Chocks – Long-lasting molded rubber design can be chained to the dock. Laminated models are also available.

Protective Railing – New! Bollards, Corner Guards, Post & Door Track protectors and Safety Railing for added safety and protection in the dock area.

PIONEER offers a complete line of finely crafted, technologically advanced loading dock equipment, including Hydraulic, Air Operated and Mechanical Pit Levelers, Edge-of-Dock and Hydraulic Top of Dock Levelers, Portable Dock boards, Vehicle Restraints, Dock Seals & Shelters, High Speed Fabric Roll-Up Doors, and other quality accessories. Just call us toll free for personal, professional customer assistance and responses to all of your product needs.

Warranty:

Dock seals and shelters are guaranteed against defects in material and workmanship for (1) one year.

Pioneer accepts full responsibility for the cost of materials, labor, and freight for any warranty claim and reserves the right to either repair or replace any defective parts.

PIONEER MANUFACTURING, INC. SHALL NOT BE LIABLE FOR THE LOSS OF USE OF ANY EQUIPMENT OR INCIDENTAL DAMAGES. PIONEER EXPRESSLY DISCLAIMS ANY AND ALL IMPLIED WARRANTIES.

Dock Seals

Dock Shelters

Pressure-treated lumber and full length yellow guide stripes are standard with all PIONEER Dock Seals.

P Series
Model P Polyurethane Foam
- Maximum energy savings—weather-tight closure
- 100% lock-stitched seams—double-stitched seams on Wear Shingle models
- All models use highest grade of materials available
- Fabric weight protection from 40 oz. to 140 oz.

PF Series
Model PF Head Curtain (in lieu of head pad)
- Non-sagging head curtain design utilizes 3/4" galvanized pipe for front edge support
- Hybrid design head curtain with foam layer (4") on curtain plus extra fabric cover (optional)
- Custom design available for special sealing needs
- Most effective for doors of oversize height
- Rope pull up (optional)

PA Series
Model PA Adjustable Head Pad
Metal hoods recommended with these models
- Full-range manual adjustment with center pull-down strap
- Single weighted counterbalanced adjustment
- Full 18" of head pad vertical movement to service a wide range of truck heights

L Pad Series
Model (L)
- Allows greater access to rear of trailer.
- Side pads provide shelter like wiper action, yet seal the sides of the trailer

Dura Seal
Extended Warranty Dock Seal
- LTA material (our high tear PX25) base materials 8" Exposure wear pleats
- 20" wide, PX420 wear pleats on the corners of the head pad. On head curtain models the wear pleats are the same width as the side pad. Helps protect in case of mis-spotted trailers.
- PX420 inside wear face on bottom 48" of each side pad. Protects against forklift/pallet damage.
- **Three (3) Year Warranty**

R Series
Model R Rigid Frame Truck Shelters
- Raked cut header on all rigid wood frame models allows for water runoff
- Side and top curtain wiper action allows for full access to rear of truck
- Automatic variable truck height coverage from 11' to 13' 6"
- Heavy duty structural channel bumpers for protection and support

F Series
Model F Flexible Truck Shelters
Metal hoods recommended with these models
- Choose from four (2) flexible models
- All spring loaded for snug fit to trailer
- Corrosion-resistant steel framing
- Reinforced wear areas for lasting durability

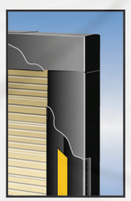
X Series
Model X Rail Shelters
Also Available

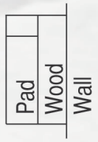
Optional Features and Equipment

Galvanized Metal Hood for over-head protection of seals and flexible shelters

Common Member Units – Seals or Rigid Shelters for dock doors that are closer than standard

Blockouts for extra protection when full projection foam is not desir-able





Larger Head Pad Height for high doors and broader range of truck heights

Tapered Units for inclined or declined truck approaches

Inclined

Declined

Wear Shingles add years of extra life to seals

S4 (4" exposure)

S8 (8" exposure)

S16 (16 1/2" exposure)
