## **PERMA RIGID GROUND DOCK SHELTER**

Perma Rigid Ground Shelters is designed to service a variety of truck sizes and types, regardless of dock door size or bumper projection. As trucks back into the shelter, face curtains wrap around truck sides and top for positive weather protection ensuring reduced energy costs, loading safety, and product protection. The full trailer opening remains accessible for unrestricted loading and unloading.

Perma Tech offers a wide variety of dock shelter cover fabrics and unit sizes to custom build a shelter suitable for even the heaviest traffic application to meet your requirements. All lumber frames are pressure treated, Scotch-ply fiberglass stays sewn into the face curtains plus a foam edge on both vertical side curtains maintain constant pressure against the truck for positive weather protection. Light transmitting panels on the top and side frames permit good visibility for safe loading. Perma Pleats on the head curtain and extra wear areas on the side curtains add durability at the critical truck contact points. Years of experience result in the proven craftsmanship and quality construction, giving you the best value for your investment.

### **HEAD FRAME:**

2" x 6" Pressure treated lumber, peaked at center to prevent snow and water build-up, and covered with a translucent fiberglass to allow a lighted loading area.

### **HEAD CURTAIN:**

Choice of many heavy duty fabrics, all with fiberglass stays and Perma Pleat wear flaps on each end at truck contact points

### **SIDE FRAME:**

2" x 4" Pressure treated lumber covered with a translucent panel for a safe, lighted loading area. Steel Frames are available

### **SIDE CURTAINS:**

Side curtains are made with matching fabric with fiberglass stays and extra wear areas on the bottom of curtains at critical truck contact points.

### **FOAM EDGE:**

Fabric covered foam strip on leading edge of side curtains for a snug fit against trailer sides.

### **GUIDE PATCH:**

18oz Yellow guide patch 12" high placed 9ft. on center for accurate truck positioning.

### ***Our Commitment to Our Customers:***

*Perma Tech, grounded in superior craftsmanship and committed to the highest level of customer satisfaction, designs and manufactures high quality, innovative loading dock products for our business partners that improve safety, productivity, and energy savings.*

### **OPTIONS:**

#### **STEEL SIDE FRAMES:**

Side frames are constructed from 1 1/2" x 1 1/2" steel tube frame

#### **BOTTOM DRAFT CURTAIN:**

Bottom draft curtain is 48" high by width of the ground shelter out of 40 oz .vinyl to block out wind and weather from underneath the truck. Made .

#### **PROTECTIVE BOLLARDS:**

Steel Bollards are available to protect the ground rigid shelter from being damage by off center trucks. Bollards come in three sizes 24, 36, and 48 inches tall. Recommend to fill with concrete for extra strength.
